

KREĆIMO SE ODRŽIVO!

Zelena mobilnost za građane i posjetitelje Zagrebačke županije

Zašto odabrati low-impact mobilnost?

Održivi načini kretanja smanjuju emisije CO₂, čuvaju prirodu, smanjuju buku i stvaraju zdraviju zajednicu. Zagrebačka županija zato potiče sve građane i posjetitelje da biraju mobilnost s minimalnim utjecajem na okoliš.

1. Biciklirajte – najzeleniji način kretanja

Zagrebačka županija razvija mrežu biciklističkih staza, zelenih koridora i "bike-friendly" usluga.

Što nudimo?

- ✓ 1.000+ km biciklističkih ruta
- ✓ Mreža „Cyclist Welcome Quality“ smještaja i ugostitelja
- ✓ Označene staze za rekreativce i avanturiste
- ✓ Mogućnost najma e-bicikala
- ✓ Karte i GPX rute na webu TZ Zagrebačke županije

Pridružite se – bicikl je idealan za kraća i srednja putovanja.

2. Električna mobilnost za sve

Zagrebačka županija ubrzano širi mrežu punionica za električna vozila.

Što je dostupno?

- ✓ Sve više javnih punionica u Velikoj Gorici, Samoboru, Zaprešiću, Ivanić-Gradu...
- ✓ Mogućnost najma e-vozila kod odabranih pružatelja usluga
- ✓ Poticaji za kućna punjenja i poslovne subjekte

Vožnja e-vozilom smanjuje emisije do 60% – odličan izbor za izlete ili dulji boravak.

3. Putujte javnim prijevozom

Županija i Grad Zagreb uvode integrirani prometni sustav:

- ✓ Usklađeni vozni redovi vlakova i autobusa
- ✓ Jedinstvena tarifa za cijelu regiju
- ✓ Povećana učestalost polazaka do 2030.
- ✓ Sigurno i povoljno za svakodnevne i turističke potrebe

Manje automobila – više prostora za ljude.

4. Hodajte i otkrivajte lokalno

Pješačke rute, edukativne staze i šetnice povezuju prirodne i kulturne atrakcije.

- ✓ Označene tematske staze
- ✓ Promocija „slow travel“ itinerera
- ✓ Vođene ture kroz ruralna područja i prirodne parkove

Najjednostavniji način da smanjite svoj ugljični otisak.

5. Kako se i vi možete uključiti?

Građani

- Birajte bicikl ili javni prijevoz kad god možete
- Uključite se u lokalne akcije „Dan bez automobila“
- Koristite e-vozila i punionice u svom naselju
- Sudjelujte u savjetovanjima o lokalnoj mobilnosti

Turisti

- Planirajte posjet koristeći vlak + bicikl kombinacije
- Koristite bike-friendly smještaj i usluge
- Istražujte destinaciju pješice ili e-biciklom
- Ostvarite dulji boravak – manji CO₂ po noćenju

MOVE SUSTAINABLY!

Low-Impact Mobility for Citizens and Visitors of Zagreb County

Why choose low-impact mobility?

Sustainable travel reduces CO₂ emissions, protects nature, improves air quality, and helps create a healthier and more enjoyable environment for everyone.

1. Cycle – the greenest way to explore

Zagreb County offers an extensive network of cycling routes and bike-friendly services.

What you can expect:

- Over 1,000 km of marked cycling routes

- “Cyclist Welcome Quality” accommodation and services
- Family, touring and adventure-ready trails
- E-bike rental availability
- Maps and GPX routes on the Zagreb County Tourism website

Cycling is perfect for both short and mid-distance travel.

2. Choose electric mobility

The county is rapidly expanding its EV charging infrastructure.

What’s available:

- Numerous public charging stations in major towns
- E-car and e-bike rental options
- Incentives for private and SME charging stations

Lower emissions, quieter travel, greener tourism.

3. Use public transport

Zagreb County and the City of Zagreb are building an integrated, low-emission transport network:

- Coordinated bus and train schedules
- Unified regional ticketing system
- Increased frequency of connections by 2030
- Affordable for both residents and visitors

Fewer cars, more people-friendly urban spaces.

4. Explore on foot

- Walking is the simplest and most eco-friendly way to discover Zagreb County.
- Marked thematic trails
- Slow travel itineraries
- Guided nature and cultural walks

Ideal for short distances and authentic local experiences.

5. How YOU can participate

Residents

- Choose cycling or public transport whenever possible
- Join local “Car-Free Day” events

- Use EV charging infrastructure
- Participate in public consultations on mobility planning

Visitors

- Plan your trip using train + bike combinations
- Stay in bike-friendly accommodation
- Explore towns and nature areas by foot or e-bike
- Extend your stay – fewer emissions per visitor
