

## **5 Golden Rules for Visitors of the “Green Ring”**

### **1. Leave only footprints in the forest**

Everything you bring into nature, take with you. Use marked waste bins, and where there are none, put the trash in a bag and take it to the first landfill. Clean nature starts with you.

### **2. Taste local, support local**

Instead of industrial products, choose homemade cheese and cream, Samobor cream cake or a drop from our wine roads. Every local product purchased directly supports our hardworking family farms.

### **3. Peace is the most beautiful sound of nature**

Enjoy the silence of the forest and the chirping of birds. Loud music and noise disturb wild animals and spoil the peace of other visitors. Turn off the speakers, amplify your senses.

### **4. A bottle for life, not for one use**

Water in Zagreb County is of top quality. Use a reusable bottle and fill it at our springs and taps. Reduce plastic - nature will thank you.

### **5. Respect tradition and privacy**

Green castles, wooden chapels and vineyards are our treasures. Take pictures and admire them, but respect private property and sacred peace. Bring a memory, leave a respect.
